District Report Card

We received our report card from the state showing how we did making sure all of our files were accurate and within all the timelines issued by the state. For last year we had 100% compliance with having everything in our files that should be there and making sure things were sent to you in a timely manner.

We also received a meets to standard for our drop out rate, which was only one student last year. We also made sure that we had students in the general education classroom as much as possible and the state was happy with our percentages of students in the general education class.
